

Use this Map to Tour the Forest Explorer Trail at South Kitsap Regional Park

The Forest Explorer Trail, located at the South Kitsap Regional Park near Port Orchard, is a 1/3-mile, semi-loop that features a series of inter-active stations that challenge trail users to see more, do more, and learn more. Children of all ages learn about the forest environment, perform simple activities for exercise and movement, and develop observation skills to explore the local "NeighborWoods." The trail construction and signage was funded with a grant from the National Park and Recreation Association and Walt Disney Company.

Address & Parking:
